The most energy efficient lighting for your home. Ever.

Solatube® Smart LED

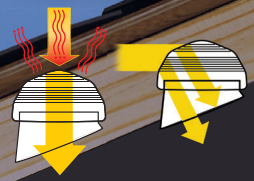
Innovation in Night and Daylighting

SOLATUBE

Raybender® 3000 Technology

A patented daylight-capturing dome lens that:

- Redirects low-angle sunlight for maximum light capture
- Rejects overpowering summer midday sunlight
- Provides consistent daylighting throughout the day



LightTracker™ Reflector

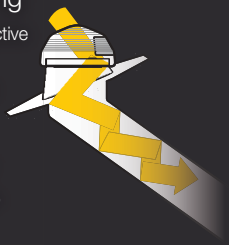
An innovative in-dome reflector that:

- Redirects low-angle winter sunlight for maximum light capture
- Increases light input for greater light output
- Delivers unsurpassed year-round performance

Spectralight® Infinity Tubing

Tubing made of the world's most reflective material that:

- Delivers 99.7% * specular reflectivity for maximum sunlight transfer
- Provides the purest color rendition possible so colors are truer, brighter
- Allows for run lengths over 30 feet to deliver sunlight to lower floors



Occupancy Sensor

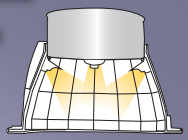
An optional device that:

- Automatically turns LED lights on and off based on room occupancy
- Minimizes energy use throughout the day and night
- Maximizes the energy efficiency of the Smart LED System

SunSense Technology

A patented control center that:

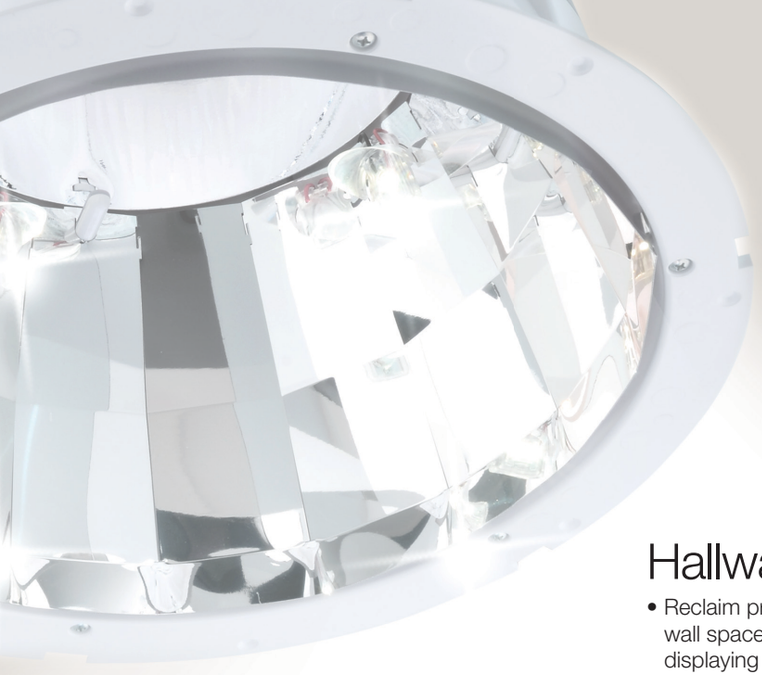
- Continually assesses light levels and determines when supplemental light is needed
- Automatically triggers LEDs to provide optimal light output
- Seamlessly transitions from waning daylight to radiant LED light



The Sun & LED Unite

Solatube International has long been the innovator in daylighting. Our early products were the first to capture daylight and deliver it to interior spaces where natural light was previously unavailable. Today, we have taken another leap forward by integrating advanced LED technology into our state-of-the-art daylighting systems. The result is the Solatube Smart LED System, a 24-hour home lighting solution that delivers up to 94% in light energy savings.

*Specular reflectance greater than 99% with wavelength-specific reflectances up to 99.7% for the visible spectrum



Light Your Home for Less

Introducing Solatube Smart LED, a 24-hour home lighting solution that delivers up to 94% in light energy savings*. This revolutionary system combines advanced LED technology with state-of-the-art daylighting for unparalleled energy efficiency. It also operates automatically, lasts longer than traditional electric lights, and is virtually maintenance-free. And that adds up to big savings for you.

More Than Just A Light

Lighting That Saves Money

- Sunlight provides no-cost daytime light supply
- Energy-efficient LEDs use minimal electricity
- System requires virtually no maintenance

Lighting That Runs on Autopilot

- Continually monitors daylight levels
- Operates automatically for hands-free lighting
- Optional Occupancy Sensor provides maximum automation

Lighting That Lasts

- Unlimited sunlight never runs out
- Energy-efficient LEDs last up to 20 years
- System eliminates need for replacement bulbs

Hallways

- Reclaim prime wall space for displaying art or photos
- Avoid stumbling on the rug with improved visual clarity

Closets

- Resolve color issues by filling dim closets with bright daylight
- Save money with the Occupancy Sensor that triggers only when the space is occupied

Entryways

- Make a lasting impression on visitors with a brighter, more colorful space
- Deter potential intruders at night with LEDs that turn on automatically

Bathrooms

- Delivers bright daylight to help with tasks like applying makeup and reading medicine bottles
- The optional Occupancy Sensor automatically activates the LEDs, ensuring safety while conserving energy

Decorate Your Ceiling

Dress up your Smart LED System with a Solatube Decorative Fixture. Offered in a variety of styles, these fixtures are designed to complement any decor with beautiful results.
